

Yes, I know, this newsletter is late. We usually get it done by the middle of a month, but we were incredibly busy all month. Moving 280 websites is more complicated than you might think. So, now that it's done, we're back to our normal routine.

Your Website Was Moved

As you probably have heard, Profit Gate recently moved all Client websites to brand new web servers. Some of our Clients experienced some difficulties during this transition. We apologize for any inconvenience.

After running 24 hours a day for five years, our web hosting servers (computers that show your website pages to the public) were due for an upgrade. We also had to comply with certain

federal regulations regarding web security, since we host a number of sites offering online ordering.

The technology has advanced considerably over the last five years. Our new web servers are 4 times faster, have 5 times the storage space, and are the latest in hardware and software available.

CHECK YOUR SITE. Please look at *every page* of your website. Some were created so long ago that they may not work right on this newer system, and may require a minor adjustment. If you see anything unusual on your site, please report it to: help@profitgate.net. We will not charge anyone for fixing such glitches.

How to Get Your Website Updated

In case you missed our earlier announcements, we have simplified the process to get an update done on your website. Here's all you need to do:

1. Create an email to help@profitgate.net
2. Type in Subject: "Update for *website.com*" (your website address)

3. In the body of your email, describe exactly what you want done, what webpage it concerns, and be specific.
4. Attach to the email any photos or documents regarding the update, if needed, and send email to us.

When we receive a request for an update, we check to see if you have pre-paid for updates or not. We then either do the update or send you a quote for how much it will cost to do. Most updates can be done for under \$50. If you are not sure what plan you are on, feel free to give us a call.

President's Corner

George Carlin quotes:

1. Think of how stupid the average person is, and realize half of them are stupider than that.
2. A house is just a place to keep your stuff while you go out and get more stuff.
3. The IQ and the life expectancy of the average American recently passed each other in opposite directions.
4. If lawyers are disbarred and clergymen defrocked, doesn't it follow that electricians can be delighted, musicians denoted, cowboys deranged, models deposed, and dry cleaners depressed?
5. Ever notice that anyone going slower than you is an idiot, but anyone going faster is a maniac?
6. Most people with low self-esteem have earned it.
7. So far, this is the oldest I've been.
8. The very existence of flamethrowers proves that sometime, somewhere, someone said to themselves, "You know, I want to set those people over there on fire, but I'm just not close enough to get the job done."
9. When someone is impatient and says, "I haven't got all day," I always wonder, How can that be? How can you not have all day?
10. May the forces of evil become confused on the way to your house.
